Care Instructions

Syngonium Frosted heart

The *Syngonium chiapense* “Frosted Heart” is a stunning beauty with heart-shaped leaves that boast a frosty, silvery-green hue. This tropical plant brings an elegant touch to any room with its unique color pattern, making it a must-have for plant enthusiasts. Easy to care for and adaptable, the Frosted Heart will thrive in various indoor environments, from hanging baskets to trailing along shelves or best grown up a grow pole.

Light: Prefers bright, indirect light but can tolerate low to medium light. Avoid direct sunlight, as it may scorch the leaves. Enjoys higher humidity levels, but will adapt to average home humidity.

Water: Allow the top soil layer (~5cm) to dry out before watering. Ensure good drainage and do not let pot to sit in water.

Maintenance: Ready potted in our premium soil, so no need to repot for the next 12-24 months. Fertilise with our GrowthTechnology Complete Focus or Foliage Focus Plant Food monthly during spring/ summer. Reduce feeding in the colder months.

Air-purifying plant.

Toxic: Keep out of reach from pets and children.
